2. Level 1 and 2 validation process - Banco Santander Totta

The level 1 rules check the completeness of the file, while level 2 relate to its internal consistency¹. The SRB also applied additional internal validation rules (those starting with prefix 'int_', 'add_' and 'ES_').

¹ Please refer to the validation rules as published on the [SRB website](#).

- The following **categories** of rules were applied: Level 1, Level 2.
- The following **set of rules** were applied: SRB_public, SRB_intrnl, SRB_intrnl_addtnl, ES.

This validation report provides the details of all the rules that were breached. Instruments with bail-in ranking 1 (CET1 instruments) are not included in the checks.

The bank is kindly requested to evaluate the results of these checks and either provide a justification if the submitted data is deemed valid, or update the IRT if changes to the bank's MIS infrastructure are necessary based on the rules' outcomes.

2025-11-14

This report was generated for OPEN BANK SA (LEI: 95980020140006024944). The reference date of the data declared by the institution is: 2025-11-14.

Please consider that the validation rules applied cover a subset of the MBDT data fields.

6. Structural checks - OPEN BANK SA

The structural checks refer to checks conducted on the overall structure of the CSV files, particularly:

- scope of the submission;
- correctness of the number of columns expected for each file;
- correctness of the data types of the data fields (e.g. numeric, strings).

Structural errors:

Please ensure to follow the technical instructions for submission as outlined in the [MBDT Annex II](#), section 1.1 and section 4. For example, some fundamental elements to take into account to ensure that the submissions are accepted include:

- Column headers in the MBDT report must comply with the instructions included in the guidance. Please use the column codes (e.g., c0010) instead of the name of the data field.

7. Level 1 and 2 validation process - OPEN BANK SA

The level 1 rules check the completeness of the file, while level 2 relate to its internal consistency². The SRB also applied additional internal validation rules (those starting with prefix 'int_', 'add_' and 'ES_').

int_v_2_0063	B0200	c0020	Unique internal identification number	Rule breached in row number: 1 ... 20, 26 ... 49, 51 ... 54 (Total #: 48)	Non-securities (c0030 is not an ISIN) should have internal IDs that are unique. Please also clarify why different nature of the liabilities are reported in c0141 with the same contract ID.	Warning
int_v_2_0065	B0200	c0030	Unique identification number (known to the counterparty)	Rule breached in row number: 1 ... 20, 26 ... 49, 51 ... 54 (Total #: 48)	Non-securities (c0030 is not an ISIN) should have external IDs that are unique. Do the duplicates refer to tranches under one contract? Please note that each tranche needs to have a unique ID known to the counterparty. Please also clarify why different nature of the liabilities are reported in c0141 with the same contract ID.	Error
v_2_0001	B0200	c0030	Unique identification number (known to the counterparty)	Rule breached in row number: 26 ... 54 (Total #: 29)	If the type of ID (c0040) is "ISIN", the values should be ISINs. We understand the breaches flagged by this rule refer to accrued interest. The solution to add "_2" at the end of the ISIN for accrued interests to distinguish it from the row related to the principal amount works also for the SRB, as long as this is not replicated for the principal amount. However, we would kindly ask you to report something different than ISIN in c0040.	Error
int_v_2_0072	B0200	c0100	Accrued interest	Rule breached in row number: 2, 4, 6, 8, 10, 12, 14, 16, 18, 20 ... 23, 31, 33, 39, 49, 50, 52, 54 (Total #: 20)	Instruments/liabilities for which the date of the next interest payment (c0180) is up to 3 months after the reporting date (B99.00;c0070) are expected to have values that are unequal to zero.	Warning
int_v_2_0073	B0200	c0100	Accrued interest	Rule breached in row number: 27, 29, 35, 37, 41, 43, 45 (Total #: 7)	Instruments/liabilities for which the date of the next interest payment (c0180) is 4 to 6 months after the reporting date (B99.00;c0070) are expected to have values that are unequal to zero.	Warning
int_v_2_0074	B0200	c0100	Accrued interest	Rule breached in row number: 47 (Total #: 1)	Instruments/liabilities for which the date of the next interest payment (c0180) is 7 to 9 months after the reporting date (B99.00;c0070) are expected to have values that are unequal to zero.	Warning
int_v_2_0116	B0200	c0140	Nature of the liability	Rule breached in row number: 26 ... 54 (Total #: 29)	If the instrument/liability is not a security (c0030 is not an ISIN), the type of instrument/liability (c0140) should in general not be "Bearer bond", "Registered bond", or "Certificate of Deposit / Commercial paper". The solution to add "_2" at the end of the ISIN for accrued interests to distinguish it from the row related to the principal amount works also for the SRB, as long as this is not replicated for the principal amount. However, we would kindly ask you to report something different than the values above in c0140.	Warning
int_v_2_0092	B0200	c0360	Trading method	Rule breached in row number: 26 ... 54 (Total #: 29)	The field is not applicable for non-securities (c0030 is not an ISIN). As above on the reporting of accrued interest.	Error
